

44012LR

12,000 lb. capacity

1 Provide safety and security allowing 2 people to work on oil changes

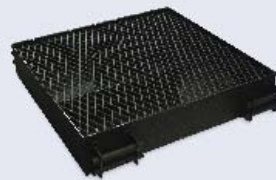

2 Provide convenience and drive-thru flexibility

3 Needs emptied less often which increases productivity

4 Enables lift to be in drive-thru service application

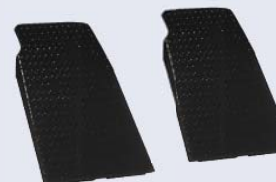

Teamwork

Challenger Lifts 44012LR is the best choice for a 2 person oil change operation. This Lube Rack is optimized for speed and efficiency. Its design allows one person to check fluids under the hood while standing on the diamond-plated catwalk and one person underneath, changing filters and fluids. With optional drive-thru ramp and oil drain pan, the 44012LR is a perfect supplement to any service facility.

Oil Drain Pan

Reduce your facility down time with 32 gallon oil drain pans. Features a baffled splash resistant design.

Drive-Thru Ramps

Drive-Thru ramps maximize time and space by allowing technicians to drive straight thru versus backing out.
